590-3

FERNANDO FERRER
BOROUGH PRESIDENT

November 2, 1988

Mr. Miguel Fuentes
President
Bronx Lebanon Hospital Center
1276 Fulton Avenue
Bronx, N.Y. 10456

Dear Mr. Fuentes. *Mike*

I would like to take this opportunity to express my support of Bronx Lebanon Hospital Centers' concept for the development of a facility in the Port Morris industrial area for the processing of biomedical (Red Bag) waste.

Normally, I would be hesitant to support such a concept without first reviewing detailed plans of the project; however, based upon past performance of your outstanding medical institution I am confident that this will be a state-of-the-art incinerator which will set the standard for similar facilities throughout our country.

I am especially happy to note that REMTECH, INC. is committed to seeking qualified Bronx businesses' in connection with the construction of this facility.

Best wishes and success.

Sincerely,

FERNANDO FERRER
